Operational coverage report

Editable template | Replace bracketed fields before distribution.

Prepared for Customer Brand

Document ID CUSTOMER-[Number] Date [Date]

Executive summary

[Summarize scope, verified observations, material uncertainty, and the next decision. Distinguish proposed actions from completed work.]

Coverage by domain

Domain	Coverage	Observation	Next step
Air	[Scope]	[Verified finding]	[Review or action]
Surface	[Scope]	[Verified finding]	[Review or action]
Subsurface	[Scope]	[Verified finding]	[Review or action]

Evidence and limitations

[List source IDs, observation times, known gaps, and limitations. Include a defensible basis for any confidence statement.]

Agent activity and decisions

Record what the workflow observed, proposed, received approval for, and executed. Keep planned and completed actions separate.

Observe

[Workflow ID, domain, source reference, collection time, and verified finding.]

Plan

[Proposed action, objective, scope, permissions, and expected result.]

Approve

[Approver, decision, timestamp, and any conditions. Mark pending if no approval is recorded.]

Act

[Actual execution status, actor, time, outcome, and exception or failure record.]

Follow up

[Record the responsible person, next step, due date, and review trigger.]

Source references
